

Juan Guillermo Moreno Gálvez

Full Stack Developer · Node.js · NestJS · React · TypeScript

juguimo16@gmail.com · +57 320 232 4272 · [LinkedIn](#) · [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience in production environments, specialized in the Node.js/TypeScript ecosystem for backend development and React 18/Next.js for frontend. Strong background in REST API architecture with NestJS, JWT authentication, and relational database management with PostgreSQL. Experience with Docker in real-world projects and testing with Jest and Selenium. Accustomed to working autonomously and remotely, with a focus on clean, scalable, and well-structured code.

PROFESSIONAL EXPERIENCE

Full Stack Developer

January 2025 – Present

Soluciones Nimrod · Remote

- ▶ Developed modern interfaces with React 18, Next.js, TypeScript, and Tailwind CSS, integrating ShadCN/UI for consistent design systems.
- ▶ Managed global and asynchronous state with Redux, Zustand, and TanStack Query (React Query); consumed REST APIs with Axios.
- ▶ Implemented and maintained serverless backend infrastructure on AWS: Lambda, API Gateway, IAM, S3, and CloudWatch.
- ▶ Collaborated on scalable architecture design, code reviews, and continuous product improvement.
- ▶ Wrote Jest tests to ensure quality in critical modules.

Full Stack Developer

2023 – 2024

Freelance Developer · Remote

- ▶ Built robust REST APIs with Node.js, Express, and JWT authentication for client applications.
- ▶ Developed frontend applications with React, consuming APIs and managing state, with a focus on performance and user experience.
- ▶ Designed and managed relational databases with PostgreSQL and MySQL, including migrations and query optimization.
- ▶ Used Docker to containerize environments in a technical assessment, ensuring consistency between development and deployment.
- ▶ Independently managed the full project lifecycle: requirements gathering, development, testing, and delivery.

TECHNICAL SKILLS

Backend: Node.js, NestJS, Express.js, TypeScript, REST APIs, JWT, Validation, Modular Architecture

Frontend: React 18, Next.js, JavaScript, TypeScript, Tailwind CSS, ShadCN/UI, Chakra UI, Redux, Zustand, TanStack Query, Axios

Databases: PostgreSQL, MySQL — schema design, migrations, query optimization

Cloud & DevOps: AWS (Lambda, API Gateway, IAM, S3, CloudWatch), Docker (basic containerization)

Testing: Jest (unit testing), Selenium (E2E testing)

Tools: Git, GitHub, remote work, Agile methodologies

EDUCATION

B.Eng. in Computer Science

University of Informatics Sciences (UCI) · Havana, Cuba

February 2022 – July 2026 (in progress)
